KURT HDL Manual Vises—HDLM4 With Hard Jaw Kit

The manually actuated HDL Anglock® Vises are high density long vises with two clamping stations. They provide repeatable clamping to 0.0002 inch. They combine high density with heavy duty features. Designed on a rugged 80,000 PSI ductile iron body with steel components, both models provide strength, rigidity and long term accuracy while absorbing machining vibration.

HDLM4 - 4" Vise
List Price - \$1,399
Sale Price - \$1,150.00

KURT D-Series AngLock Vises

Features:

- AngLock design assures the movable jaw does not lift.
- Hardened vise bed.
- Hardened jaw plates.
- Semi-hard steel screw.
- 80,000-PSI ductile iron body.

D40 - 4" Vise
List Price - \$661.45
Sale Price - \$525

D100 - 10" Vise
List Price - \$2,895.00
Sale Price - \$2,000

The D40 vise is recommended for intermediate milling and grinding work. It is an ideal vise for use in matched multiples for holding long parts. With jaw plates in their outside positions, this 4 inch vise has a capacity of 10-5/16 inches. The D100 is the largest and strongest of our general purpose vises. With 9-3/4 inches of jaw opening it has the capacity and strength to take on your highest horsepower milling cuts. It's the most precise and rugged 10 inch production vise in the world.

KURT Versatile Lock Vises

Features:

- Can be mounted upright or on either side.
- Matched stationary jaw to keyway including the body height ± 0.001 ".
- 0.0005" clamping repeatability.
- All air units feature a 1/4" vise stroke.

3600A - 6" Vise
List Price - \$2,132
Sale Price - \$1,575

The Kurt VersatileLock™ vises are designed for maximum workholding versatility in most CNC machining applications. Delivering .0005" repeatable damping accuracy. VersatileLock™ vises are stronger, lighter and more easily mounted than any other precision machine vise. With their modular design they are easily convertible in special damping situations.
